Internet Publications Permission Notice

A new method of publishing has been created using the Internet as its means of delivery. The Nassau County Soccer Coaches Association maintains a web site with information about the Fall Soccer Season and the high schools teams that participate in the Fall League. Individual schools may also produce web pages with specific information and showcases of both teams and athletes.

The Nassau County Soccer Coaches Association understands that you may or may not want your child's picture and/or name displayed on the Internet. However, we have developed a format for Internet publishing. Please read the permission statements carefully, check off your choice and return the form to your child's varsity coach promptly.

I give permission for my child's full name, picture, performances and honors to be electronically displayed on the Nassau County Soccer Coaches Association website (LISOCER.ORG).

YES _____ NO _____
